This Order Form is completed by the Customer, or by Safe and Informed S.R.L. ("Safe & Informed") from the Customer's e-mail request and then sent to the Customer for confirmation, together with the Monitor Terms of Service, the Privacy Policy, the Data Processing Agreement, the Acceptable Use Policy and the Refund Policy. The contract is concluded when the Customer replies with clear acceptance and Safe & Informed confirms the Order (Terms 3.1–3.2). The Service is offered to business customers only (Terms 2.4); this form is not sent to a consumer. Where a field does not apply, write "n/a".

All services

- Report (PDF) with findings, evidence, cookie and storage inventory, limitations and the methodology version, for the pages, browsers and locales recorded in section 2.

One-time services

- Quick Scan: one page, Chromium, one locale; the applicable automated tests; no developer tickets, no questions by e-mail, no re-scan.
- Audit: up to three pages, Chromium and WebKit, up to two locales; the applicable automated tests; the page-consistency check across the scanned pages; developer tickets with priorities and the acceptance criterion for each; questions by e-mail about the Report for 10 days after delivery.
- Re-scan: one further Scan of the scope recorded in section 2 after the Customer's fixes; a check of each earlier Finding; a before-and-after comparison; an evidence pack with the SHA-256 of every file; a Report of resolved, persisting and new Findings; questions by e-mail for 10 days after delivery. The Customer or its developer makes the changes; we verify the result and do not modify the website. Extra pages or locales ordered with the Re-scan are a separate run with its own Report, outside the before-and-after comparison.

Monitoring

- Weekly Scans of the scope in section 3, comparison with the previous comparable run, alert e-mails for the fixed conditions in section 3, a monthly PDF summary, and evidence retained for 12 months after each delivery or shorter on instruction (Privacy 10, DPA 10). Monitoring does not include fixes or Re-scans on demand; a Re-scan or a wider scope is ordered separately.

Questions by e-mail are included in the Audit and the Re-scan only; a question under another service is answered on quotation. More than four websites, branded Reports or any other scope not listed in the Price List are quoted separately.
